United Arab Emirates**

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of **Amlak PJSC, Dubai, United Arab Emirates** (the “Company”) and its **Subsidiaries** (together referred to as the “Group”) as at 30 June 2023, and the related condensed consolidated interim statements of income, comprehensive income, changes in equity and cash flows for the six month period then ended. Management is responsible for the preparation and fair presentation of this interim financial information in accordance with International Accounting Standard 34: Interim Financial Reporting (“IAS 34”). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34.

2 ACCOUNTING POLICIES

2.1 ASSESSMENT OF GOING CONCERN ASSUMPTION

Due to the shrinking of the financing assets portfolio, the Group has reported a decline in financing income. The Group has inventory of investment properties and other investments outside the UAE which are required to be disposed of by December 2023 to continue to remain compliant with the Finance Companies Regulations. Continued delinquencies in the financing assets portfolio also poses a future risk to generate sufficient cashflow to meet the repayment obligation of financiers.

The Group’s management has taken several steps to address the situation including the following:

- Debt settlement auctions undertaken throughout the period generated a profit of AED 154 million (30 June 2022 AED 183 million) during six month period ended 30 June 2023.
- Exploring different options to address investments in order to remain compliant with regulations.
- The Company entered into negotiations with financiers of the Company in order to exit from Common Term Agreement for restructuring. If the Company succeeds in negotiations, it will provide an opportunity for business development and further growth.

Management has witnessed increased demand for certain properties within the Group’s investment property portfolio and expects this to continue throughout 2023 given the various government initiatives being implemented. These realisations will ultimately contribute to profitability of the Group.

The Central Bank (CB) in its examination report pointed out that, growing the financing assets is critical, without which Amlak may not generate sufficient cash flows in future to meet financiers obligations. Further, the company is not competitive with other banks in terms of pricing the financing portfolio and has a significant inventory of real estate assets which may pose a risk on the company to become non-compliant with the Finance Companies Regulations.

Management has determined that the actions that it has taken are sufficient to mitigate the uncertainty and has therefore prepared these consolidated financial information on a going concern basis.

Investment properties consist of land, villas and units in buildings held for lease or sale. In accordance with its accounting policy, the Group carries investment properties at fair value.

The fair values of the properties are based on valuations performed at quarter end by independent professionally qualified valuers who hold a recognised relevant professional qualification and have relevant experience in the locations and segments of the investment properties valued. The valuation model used is in accordance with that recommended by the Royal Institute of Chartered Surveyors.

All investment properties are located within the UAE. Except for investment properties in a joint venture, investment properties are categorised as Level 3 for fair value measurement as they have been derived using the comparable price approach based on comparable transactions for similar properties. Sales prices of comparable properties in proximity are adjusted for differences in the key attributes such as property size and location. The most significant input into this valuation approach is the estimated price per square foot for each given location. There were no transfers into or out of the Level 3 category during the year.

Valuation technique used for investment properties in the joint venture -Warqa Garden Project – has been derived using the comparable price approach based on comparable transactions for similar properties. Inputs used by valuator include sale price range from AED 95 to AED 100 per sq ft for mixed use plots. Sales price for showroom plots is AED 295 per sqft and for school plots is AED 250 per sqft.

Amlak Finance PJSC acquired a 50% interest in Al Warqa Gardens LLC, a jointly controlled entity to develop a jointly owned plot of land in Nad Al Hammar. The Group has a 50% share in the assets, liabilities, revenue and expenses of the joint venture and accordingly under IFRS 11 it is deemed to be a jointly controlled operation. As the land is under development with a view to disposal in the market, it has been treated as property under development with an initial cost equal to its fair value at the time of transfer from investment property portfolio for AED 330 million. Subsequent expenditure to develop the land for resale is included in the cost of the property. The cash held by the joint venture is restricted, given that it is contractually committed to the development of the land under the joint venture agreement. The nature of the Company's deposits was significantly changed due to the restructuring undertaken in 2014, resulting in a fixed obligation to be paid to the Commercial Financiers and Liquidity Support Providers. In accordance with IFRS, due to the substantial changes in the terms of the investment deposits through the restructuring, a fair valuation assessment of the restructured obligations was performed based on the net present value of the contracted cash flows. As at 25 November 2014, the restructured obligations were initially recognised at fair value in the statement of financial position giving rise to AED 911 million of fair value gain which was recorded in the consolidated statement of income.

In June 2020, the Company again undertook restructuring of deposits of Commercial financiers; the face value of the restructured fixed obligations at period end is AED 4,219 million. Upon revised restructuring, repayment behaviour was significantly changed resulting into scheduled and non-scheduled instalment payments linked to sale of certain investment properties.

The fair value adjustment is calculated using the original effective profit rate of 4.89%. The cumulative value of fair value gain amortised till to 30 June 2020 was AED 627 million (31 December 2019: AED 584 million) giving a residual fair value gain of AED 284 million as at 30 June 2020 (31 December 2019: AED 328 million). However, upon restructuring in 2020, this residual fair value gain as at 30 June 2020 was increased to AED 497 million which will be fully reversed out over the repayment period till October 2026, with a resulting charge to the consolidated statement of income each year.

The obligations are subsequently to be measured at amortised cost using the effective finance rate method.

Restructured investment deposits and other Islamic financing are secured against assignment and mortgage over the Group's investment properties located in UAE (note 9), assignment of insurances, pledge over bank accounts (note 5), assignment of rights to receive payments in connection with the Islamic financing and investing assets portfolio and corporate guarantees of the Group's subsidiaries. Securities offered would be held by a security agent on behalf of the financiers.

14 MUDARABA INSTRUMENT

Mudaraba Instrument (nominal value)	407,864	512,251
Mudaraba Instrument Reserve	(322,171)	(404,627)
Mudaraba Instrument (carrying value)	85,693	107,624

On 25 November 2014, a Mudaraba Instrument of AED 1,300 million with a maturity in November 2026 was issued through a special purpose vehicle owned by the Group. On maturity, the Mudaraba Instrument to the extent it is not redeemed, will mandatorily convert into ordinary shares of the Company with the face value of AED 1 each.

The Mudaraba Instrument at the time of issue comprised:

1. Face Value of AED 1,300 million.
2. An expected profit rate of 1% per annum on the outstanding balance each year, payable as profit in kind ("PIK") which the Company can elect to make distributions in cash or in the form of shares.
3. A contingent issuance of upto 500 million shares applicable only to the extent the Mudaraba Instrument remains outstanding at maturity. The number of contingent shares to be issued is prorated with the amount of Mudaraba Instrument remaining outstanding.

As the Mudaraba Instrument is redeemed, there will be a proportionate reduction in the contingent share issuance due.

The Mudaraba Instrument was recorded at fair value at the time of issuance. The difference between the fair value of the Mudaraba Instrument and the carrying value of the deposits it replaced of AED 1,027 million was recorded as a gain in the 2014 income statement as required by IFRS. Subsequent to initial recognition, the carrying value of the Mudaraba Instrument will not be re-measured. The fair value gain of AED 1,027 million on initial recognition of the Mudaraba Instrument was transferred from accumulated losses to the Mudaraba Instrument reserve. This reserve will be utilized in the event of any repayment of the Mudaraba Instrument or on issue of shares in the Company on maturity of the Mudaraba Instrument. Any difference between the par value of shares issued on conversion and the carrying value of the Mudaraba Instrument and Mudaraba Instrument reserve will be posted to retained earnings / accumulated losses.

14 MUDARABA INSTRUMENT(continued)

The fair value of the Mudaraba Instrument was determined based on management's best estimate of the expected cash flows that will arise, discounted at the Company's cost of equity. For this purpose, management assumed that the Mudaraba Instrument will be redeemed, in full, in year 12 and the PIK charge for the 12 year period will be settled on the same date.

The fair value of the Mudaraba Instrument was calculated using a cost of equity of 14.96% calculated under the Capital Assets Pricing Model wherein the risk free return was based on UAE Government's long term bond; levered beta was based on comparable company's beta within similar businesses and a market risk premium was based on current market conditions which reflects the additional expected return over a risk free investment.

On 12 August 2015, the Board of Directors of the Company voluntarily opted to redeem AED 200 million against the Mudaraba Instrument which has reduced the Mudaraba Instrument and Mudaraba Instrument reserve by AED 42 million and 158 million respectively. The Company also paid AED 9 million in 2015, in respect of PIK charge falling due as a consequence of the repayment of the Mudaraba Instrument with the amount being 1% of the outstanding Mudaraba Instrument from the date of restructuring to the date of redemption. This charge was recorded in accumulated losses in equity.

On 23 November 2017, the Board of Directors of the Company voluntarily opted to redeem AED 75 million against the Mudaraba Instrument which has reduced the Mudaraba Instrument and Mudaraba Instrument reserve by AED 16 million and AED 59 million respectively. The Company also paid AED 25 million in 2017, in respect of PIK (profit) as a consequence of the redemption of the capital under the Mudaraba Instrument with the amount being 1% of the outstanding Mudaraba Instrument from the 1st redemption date to the 2nd redemption date. This charge was recorded in accumulated losses in equity.

During the period ended 30 June 2023 the Group redeemed Mudaraba instrument in the value of AED 104 million (year ended 31 December 2022: AED 228 million) through the debt settlement mechanism (note 12).

At 30 June 2023, the maximum number of shares which may convert under the instrument are 601 million (31 December 2022: 755 million).

Since commitments may expire without being drawn upon, the total contract amounts do not necessarily represent future cash requirements.

Contingencies

The Group is defending these cases and, based on legal counsel advice received, believes it is less than probable that such actions taken by counter parties would succeed, a provision of AED 18 million (2022: AED 18 million) that has been made.

20 CORPORATE INCOME TAX

On 9 December 2022, the United Arab Emirates (UAE) Ministry of Finance (“MOF”) released Federal Decree-Law No 47 of 2022 on the Taxation of Corporations and Businesses, Corporate Tax Law (“CT Law”) to enact a new CT regime in the UAE. The new CT regime has become effective for accounting periods beginning on or after 1 June 2023. The CT Law confirms the rate of 9% to be applied to taxable income exceeding a specified threshold.

As the Group’s accounting year ends on 31 December, accordingly the effective implementation date for the Group will start from 1 January 2024 to 31 December 2024, with the first return to be filed on or before 30 September 2025.

As per the Group’s assessment, there is no deferred tax impact on account of the CT Law in the interim financial statements for the period ended 30 June 2023. The Group will continue to assess the possible impact of the CT Law on the Group consolidated financial statements, from current and deferred tax perspective, based on clarifications and guidance on the implementation of CT Law.
